- 1. A new building for the UDB is under construction on the corner of Savska and Beogradska Streets in Zagreb. The outside structure is completed. The building has a basement, ground floor, and two upper floors. In the middle of the building there is a sort of superstructure of tower-like form, with additional two floors. In the superstructure there are small rooms which will allegedly be used for interrogations. The ground floor of the new building will be used for garages with the entrance through the courtyard from Beogradska Street. In order to facilitate transfer of prisoners from the prison, which is located on the other corner of the same two streets, a bridge will be built between the new building and the prison on the first floor (European). The building has the form of a semi-circle with the outer part of the circle facing the corner of Beogradska and Savska Streets.
- 2. Three corners of the aforementioned streets will thus be occupied by UDB buildings: the new building, the prison for political prisoners, and the building where the UDB Headquarters for Croatia is located. Twelve new apartment buildings are being erected in the area along Beogradska Street, starting from the fourth corner of the above mentioned streets. Some of these apartments have been completed and people have already moved in. These apartments are given mainly to government employees and mostly to members of the Federation of Communists of Yugoslavia (FCY), many UDB officials among them.
